

Can't see the card you want? Ask us.

Our **entire eBay stock** came to the show with us. If it's listed online, it's in a box behind this table — and we can have it in your hand in a minute.

01 Tell us the card

Name, set and number is ideal. A photo or an eBay listing on your phone works just as well.

02 We search the stock

On the spot, against everything we brought — not just what fitted on the table.

03 We pull it for you

Same card, show price, across the table. No postage, no waiting for the post.

If it's on our eBay, it's in the box.

Ask any of us — bring a want list, we'll check the lot.
